Client: Activate Joint Venture (Egans Contracting)

Location: Melbourne, VIC

Year: 2013-14

Value: \$140M

The Activate Joint Venture (a JV between John Holland, AbiGroup and Coleman Rail) was awarded the Regional Rail Link – CMR section.

Egans Contracting with Novel Group was engaged provide supervision, labour and plant for numerous rail shutdowns over the project duration. In addition, labour and plant resources were provided to construct subsurface drainage under the existing tracks.

The project involved:

- Providing supervision and labour
- Providing plant and equipment to undertake civil works during rail shutdowns including:
 - Track removal
 - Subgrade preparation
 - Subsoil drainage works (including Under Track Crossings)
 - Electrical conduiting

The works involved coordinating the workforce and plant over day and night shifts.
